Purpose

Create powerful visual journalism for ABC News as part of the Digital Story Innovation team. You will be working with journalists, developers, designers and video specialists creating compelling visual, interactive and data journalism.

Key Accountabilities

- Lead projects and work closely with reporters, designers, data journalists and other editorial staff to visualise, develop, test and implement engaging digital stories and interactive content around ABC's in-depth journalism and news events.
- Under broad direction, develop from concept to realisation a wide range of complex interactive applications and interactive digital presentations, including visualisations of complex data.
- Develop rich interactive components and applications that enhance audience understanding and engagement, including charts, maps, infographics and data visualisations – at times using a large amount of structured data sourced from both internal content management systems and external APIs. Integrate, test and debug front-end functionality with applications and databases.
- Actively participate in various forums, such as editorial meetings, to contribute to the development of ideas and leads that result in the creation of engaging news stories on digital platforms.

- Solve problems, proactively learn new skills and contribute ideas on how news is covered with visuals.
- Train and mentor content makers in best practice digital production, namely in data visualisation and data journalism, and provide strategic advice on corporate technical solutions to support interactive digital journalism.
- Maintain a high level of awareness of best practice in the industry for areas such as data visualisation, interactive storytelling, emerging standards and accessibility across multiple platforms.
- Develop and maintain key documentation for solution designs.
- Work effectively and collaboratively in a team, suggesting ideas and assisting to develop the output needs of others.
- Actively promote the ABC values and apply all relevant workplace policies and guidelines.
- Cooperate with any reasonable instruction, procedure or policy relating to safety and take reasonable care for your own safety and that of other people who may be affected by your conduct while at work. Additional WHS responsibilities apply to Managers and Supervisors, Team Directors, and other Officers.

Key Capabilities/Qualifications/Experience

1. Advanced JavaScript, HTML and CSS skills, with demonstrated experience contributing to the building and releasing enhanced websites or web applications that work across multiple platforms and browsers whilst adhering to web standards and accessibility principles.
2. Experience using JavaScript libraries and frameworks, particularly Svelte, React, Node and D3 (or similar). Demonstrable experience in the techniques of asynchronous JavaScript using JSON, CSVs, database or API connection.
3. High level experience using front end web development to produce compelling data visualisations, custom interactive maps, 3D models and other visual elements.
4. A demonstrated and ongoing interest and passion in visual and data journalism
5. Extensive experience in finding, researching, reporting and developing original stories, including the use of technical means to unearth new information. Experience working with journalists on cross-functional teams to develop stories.
